RESISTIVE STEAM HUMIDIFIER Condair RM

The Condair RM is an atmospheric steam humidifier generating clean, mineral-free, sterile steam. The steam is produced by resistive heating elements in the water tank and is distributed into the building ventilation system through a steam distributor.

- · Compact design simplifies installation and service, even in confined spaces
- · Removable composite scale tank for easy cleaning
- · Durable powder coated steel cabinet
- · Delivered as a turnkey unit complete with installation kit
- · Can be mounted on a wall or directly on the floor
- Insulating air gap between plumbing and electrical compartment for increased reliability
- · Drain pump ensures complete drainage
- · Accurate control with touch display
- · Compatible with most common control signal types
- · Convenient connection to BMS systems with fault indication and Modbus RTU
- Advanced water management features with adjustable drain cycles and time sequences extend cylinder life and prevent water stagnation
- · Hybrid control (relay and semiconductor) provides long lifespan and high reliability
- · Compatible with Condair DV61, W30 and OptiSorp steam distributors
- · Ion exchanger cartridge for scale management (optional)
